

"I am very grateful I scheduled a pet first aid class for my staff with Alison Martin. As the owner of Island Pet Resort, I strive to provide the safest possible facility for all my pet guests. Alison not only instructed us regarding emergency situations, she also provided great information that we will incorporate into our daily operations. Alison is not only an informed instructor, she makes the class fun and is very willing to answer all questions. I would recommend Alison's class for any concerned pet owner or pet care professional."

Ann Bruns, Owner
Island Pet Resort
Grand Island, NE

"Alison and the Pet Saver curriculum was a true asset to the Companion Animals classroom. Students gained skills with hands-on activities relating to emergency pet care. They are now able to follow the proper procedures in saving a pet's life."

Jessica Hermanson
FFA Instructor

First Aid & Care For Your Pets
*"Improving The Quality Of Pet's Lives,
One Pet Owner At A Time"*

Your pets are counting on you.

Pet Tech is the first national training center dedicated to first aid and care for dogs and cats. Knowing the life saving skills and techniques of pet first aid is a very important part of being a caring, conscientious, responsible and loving pet guardian.

As a Pet Tech instructor, I'm dedicated to the health, safety, care and welfare of companion animals. Animals are my life long passion which is why I created my pet sitting business, Two Paw Prints Pet Sitting in 2000.

Prior to owning my business and becoming a Pet Tech Instructor, I worked for a humane society and two veterinary clinics in the Denver area.

I'm loved by 6 dogs, 4 cats and 2 horses and in return for that unconditional love, I strive to be the best pet guardian I can be. By learning and teaching the skills in the Pet Tech program, I'm able to not only save one of my pet's lives but help others to do the same. I invite you to give that unconditional love back to your pet and receive your certification in Pet First Aid...our pets are depending on us.

Alison Martin - Certified PetTech Instructor

Some of the topics covered are:

- Restraining & Muzzling
- Pet CPR
- Rescue Breathing
- Choking Management
- Snout-to-Tail Assessment
- Heat/Cold Injuries
- Poisoning & Poisonous Substances
- Bleeding Protocols
- Bites & Stings
- ABC's of Pet First Aid
- Assessing your pet's vitals
- 10 situations that require immediate veterinary care
- How to create your own pet first aid kit

According to the American Animal Hospital Association, 1 out of 4 more pets could be saved if just one pet first aid technique is used before transporting the animal to the veterinarian. You will learn over 50 techniques in a Pet Tech class!

Pet Tech Classes

PetSaver

8 hours

This comprehensive class taught by lecture, demonstration and hands-on practice will provide you with the necessary skills and techniques to provide emergency care for your pet. This course also includes the following: First Aid & Care for Your Pets, Dental Care for Your Pets and Caring for Your Senior Pet-izen.

First Aid & Care for Your Pets

4 hours

Would you know what to do if your pet came in with a bleeding gash on his leg, suffered a bite or sting, ingested a poisonous substance, choked on a chew toy or simply stopped breathing? Throughout this class you will learn life saving skills taught by lecture, demonstration and hands-on practice.

Dental Care for Your Pets

1 1/2 hours

You will learn how to provide good oral hygiene for your pet, stages and treatment of periodontal disease and signs & symptoms of dental health problems.

Caring for Your Senior Pet-izen

1 1/2 hours

You will learn when your pet is considered a senior, signs to look for that indicate possible problems and ways you can keep your pet healthy and comfortable as he or she ages.
